Weight 2.650
3 swivel studs
Full aluminum bedding block
Beavertail forearm shape

2 Action Screws + rear trigger guard screw
(rear trigger guard screw provided with stock)

Forearm shape

Stock Dimensions

Overall Length = 31.5"
Narrowest forearm width = 2.280 Near Tip
Widest forearm width = 2.350" Near DBM
Length of pull = 13.5"
Forearm Length 11"

Hole Spacing: (measured from back of recoil lug to center of hole)

*action screw holes only-does not include rear trigger guard screw

Front	Center	Rear
0.94	N/A	5.215

Due to varying action lengths and changes in feeding systems, it is critical that each stock is measured for action screw spacing, and the feeding system is specified prior to ordering.

The older design internal magazine box has a staggered feed magazine sleeve that is attached to the receiver.

The newer design internal magazine box has a center feed magazine sleeve that is not attached to the receiver and is held in place by the stock. (None of our stocks will work for this design)

The newer Detachable Box Magazine system has a center feed detachable magazine box.
